PROGRAMME – POZNAŃ 2008

Basic of NMR & Tutorial			
	Thursday, June 19	**Friday, June20**	**Saturday, June 21**
8:30 -9:00	**Registration**		
9:00 -10:00	**Prof. B. Meier** **Structure determination on biomolecules (and fibrils in particular) by solid-state NMR**	**Prof. E. Szcześniak** **Basics of NMR Imaging**	**Prof. F. Fujara** **Nuclear Spin - Lattice Relaxation: background, examples, instrumentation**
10:00 – 11:00	**Prof. J. Stepišnik** **Analysis of diffusion and flow by spin echo**	**Prof. D. Michel** **Advanced Signal Processing for NMR Spectroscopy and Imaging**	
11-11:30	**Coffee break**	**Coffee break**	**Coffee break**
11:30 -12:30	**Prof. E. Burnell** **Multiple Quantum NMR with examples from liquid crystals**	**Prof. C. de Lange** **NMR spectroscopy of solutes dissolved in liquid**	**Prof. B. Blümich** **Analysis of Polymer Morphology by High- and Low-Field NMR**
12:30-13:15	**Lunch**	**Lunch**	**Lunch**
13:30 -15:00	**Practice***	**Practice***	**Practice***
15:00 -16:30			
16:30-18:00			
19:00 - …	**Dinner**	**Dinner**	**Dinner**

*Practice: - CPMASS, -Diffusion, -Fast Field Cycling, -Imaging, -Relaxation, -Spectroscopy, -High Pressure NMR
